Satisfaction with administration falls

MANILA (Philippine Daily Inquirer) — A survey conducted by the Philippine Chamber of Commerce and Industry (PCCI) shows that satisfaction with the administration of President Gloria Macapagal Arroyo has fallen significantly since the start of her second term in 2005.

The survey, which was conducted by the PCCI's research arm, the Philippine Chamber of Commerce and Industry Research Center (PCCI-RC), found that only 38 percent of respondents expressed satisfaction with the administration's performance. This is a significant decline from the 65 percent satisfaction level recorded in a similar survey conducted in 2005.

The survey also found that the administration's performance in the areas of economic growth, social justice, and environmental protection were the most criticized areas. Respondents expressed concerns about the government's handling of the 2007 elections and the ongoing conflict in Mindanao.

Romulo: RP picked top labor-deploying country

By Cynthia D. Santos

MANILA (Philippine Daily Inquirer)—The Philippines has been ranked as the top labor-deploying country in the world, according to a report by the International Labor Organization (ILO) released last week.

The ILO report, titled "World Employment Trends 2007," ranked the Philippines as the top labor-deploying country in the world, ahead of China and India.

The report also noted that the Philippines has a high level of labor mobility, with a large number of workers employed in the services sector.

21 Pinoy seamen safe after ship catches fire

By Cynthia D. Santos

MANILA (Philippine Daily Inquirer)—Twenty-one Filipino seamen were rescued after their ship, the *MSD-101*, caught fire and sank in the South China Sea last week.

The ship, which was carrying 21 seamen, was on its way from Manila to Hong Kong when it caught fire on the night of May 10.

The ship was rescued by the Chinese coast guard, and the 21 seamen were safely brought to Hong Kong.

OFF GENERAL SANTOS Once-abundant tuna grounds heading toward depletion

MANILA (Philippine Daily Inquirer)—The once-abundant tuna grounds off General Santos are heading toward depletion, according to a report by the Department of Environment and Natural Resources (DENR).

The report, titled "Tuna Grounds off General Santos," noted that the tuna grounds have been overfished, and the tuna population has declined significantly.

The DENR is calling for stricter regulations to protect the tuna grounds and ensure sustainable fishing.

Issue of violence by immigrants jolts Germany

BERLIN, Oct. 10 (AP) — A series of violent attacks by immigrants in Germany has triggered a national debate about the country's policies on immigration and the role of the police in dealing with the problem.

The attacks, which took place in the cities of Cologne, Frankfurt and Munich, resulted in the deaths of several people and the injury of many others. The police have been accused of using excessive force in dealing with the immigrants, and the government has been criticized for its handling of the situation.

The issue of immigration has become a major political issue in Germany, with the government facing pressure from both sides of the political spectrum. On the one hand, there are those who believe that the country should continue to accept immigrants, while on the other hand, there are those who believe that the country should take a more restrictive approach.

Figure 1 shows the results of the regression analysis. The results show that the regression model is significant at the 0.05 level. The adjusted R-squared value is 0.15, indicating that 15% of the variance in the dependent variable is explained by the independent variables. The regression equation is:

1. The first step is to identify the problem.
 2. The second step is to define the problem.
 3. The third step is to analyze the problem.
 4. The fourth step is to develop a solution.
 5. The fifth step is to implement the solution.
 6. The sixth step is to evaluate the solution.
 7. The seventh step is to monitor the solution.
 8. The eighth step is to maintain the solution.
 9. The ninth step is to improve the solution.
 10. The tenth step is to document the solution.

The figure consists of a 5x5 grid of small square images. Each image represents a unique combination of the five input features (A, B, C, D, E) for the XOR problem. The patterns of black and white pixels vary across the grid, illustrating the high-dimensional input space.

No chance of reunion with Paul

LONDON, ENGLAND—YOUNG Paul McCartney (aged 50) has just passed the 50th birthday of his father, Paul McCartney (aged 70). The younger Paul has just released his new album, *McCartney*, and is celebrating his 50th birthday. The older Paul has just released his new album, *McCartney II*, and is celebrating his 70th birthday.
